

# Stellrr's 3 Attic Options

## Space Age Cleanse - \$\$\$

- 97% chance of performance
- 4-day process on 1,000 sq ft
- Lifetime Performance Guarantee
- Lifetime Workmanship Warranty
- Lifetime Manufacturer Warranty
- 10 Year Smart Money Guarantee

### Insulating Rating Method: 250pts

- 50 of 50 pts Radiant Heat - sun
- 100 of 100 pts Convective - air
- 100 of 100 pts Conductive - touch

### Energy Efficiency

- R25 performance code spray foam
- Recoup avg 30% duct leakage
- Ducts in 79\* attic, delivers perfect temp air to each room.

### Indoor Air Quality

- Years of allergens removed
- Pest nesting, poo, pee removed
- Air seal attic roof to keep bad out
- Remove existing insulation
- Shockwave sterilize attic

### Moisture Management

- HVAC runs less but doesn't pull pull moisture from the air. We now mechanically manage humidity with Sanidry whole home dehumidifier
- Prevent mold, dust mites, viruses from growing by controlling humidity

## Dr. Energy Saver - \$\$

- 73% chance of performance
- 3-day process on 1,000 sq ft
- Lifetime Manufacturer Warranty
- 2-Year Workmanship Warranty
- 10 Year Smart Money Guarantee

### Insulating Rating Method: 150pts

- 7 of 50 pts Radiant Heat - sun
- 65 of 100 pts Convective - air
- 75 of 100 pts Conductive - touch

### Energy Efficiency

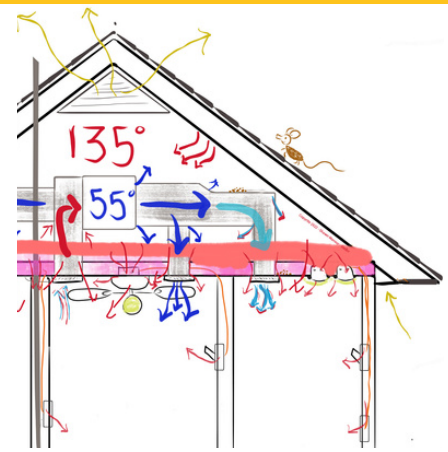

- New R60 EnergyStar AllBoric cellulose
- Avg 30% duct leakage still escapes
- Ducts in 135\* attic, the 55\* air heats up as it travels to each room.

### Indoor Air Quality

- Years of allergens removed
- Pest nesting, poo, pee removed
- Air seal attic floor, close 2'x2' window
- Remove existing insulation

### Moisture Management

- HVAC runs less but doesn't pull as much moisture from air, more humid
- Outdoor humidity blocked via air seal

## Lipstick on a Pig - \$

- 25% chance of performance
- 1-day process on 1,000 sq ft
- No Warranty

### Insulating Rating Method: 30pts

- 0 of 50 pts Radiant Heat - sun
- 10 of 100 pts Convective - air
- 20 of 100 pts Conductive - touch

### Energy Efficiency

- Blow over current insulation until R49
- Avg 30% duct leakage still escapes
- Ducts in 135\* attic. The 55\* air heats up as it travels to each room.

### Indoor Air Quality

- Years of allergens still enter the home
- Hidden pest poo, pee, nest stay
- No air seal; keep 2'x2' window open
- No removal of old attic contaminants still pushed into indoor air

### Moisture Management

- HVAC still runs too hard; no change
- Humidity in the attic and home is uncontrolled, susceptible to outside

# Stellrr's 3 Attic Options (cont'd)

## Space Age Cleanse (SAC)

### Combustion Ventilation

- Keep your 80% Gas Furnace or Water Heater. Make-up & exhaust air code met.

### Fire Safety Protection

- Kindling-filled insulation gone
- Attic soffit, gable, roof vents are fire/pest screened & the attic is sealed, blocking all exterior combustibles
- Ember and wildfire risk gone  
NoBurn flue/chimney wrapped  
Ignition barrier applied to foam

### Check Engine Light

- AI Performance monitoring
- Know how the system is doing from anywhere anytime
- Be notified of potential risks and changes in performance so it can be fixed before a bigger problem

### Remodeling Damage to Insulation

- None, since no insulation on floor

### Pest Control

- Visually and audibly inspect, easy management

## Dr. Energy Saver (DES)

### Combustion Ventilation

- Not addressed

### Fire Safety Protection

- Kindling-filled insulation gone
- Attic accepts combustibles via soffit, gable, roof vents
- Ember and wildfire risk low  
NoBurn flue/chimney wrapped  
AllBoric Cellulose fire barrier

### Check Engine Light

- No measure of results or if performance changes

### Remodeling Damage to Insulation

- High, will pay again to fix

### Pest Control

- All Boric repels pests, but activity cannot be seen or heard

## Lipstick on a Pig (LOP)

### Combustion Ventilation

- Not addressed

### Fire Safety Protection

- Leaves, tassels, dust, wood chip kindling stays in attic.
- Vented attic continues to fill with combustible materials.
- Ember and wildfire risk high  
Flue/chimney fire burn risk

### Check Engine Light

- No measure of results or if performance changes

### Remodeling Damage to Insulation

- Very high, will pay again to fix

### Pest Control

- Speedy Gonzalez Bed and Breakfast still present in attic. Pest problems will increase over time

## Stellrr's SAC Unique Capabilities

- IAQ Health Defense
- Roof Warranty Protection
- Mold Habitat Elimination
- House Fire Reduction

- Testing to Ensure Results
- Insurance Claim Denial Protection
- Eliminate Bacteria and Virus Habitat
- Customized Chemistry to Max Result

- Best Off Gas to Re-Entry Speed
- Custom R-Value on each Wall/Ceiling
- Cut Solar Panel Requirements in 1/2.
